The Night Sky

Canada's 'Dark Sky Preserve' parks protect nocturnal habitats of wildlife and encourage enjoyment of the night sky. Parks Canada manages a number of these including the world's largest – Wood Buffalo National Park.

Ciel nocturne

Les « réserves de ciel étoilé » du Canada contribuent à protéger les habitats de la faune nocturne et encouragent le public à apprécier la beauté du ciel de nuit. Parcs Canada gère plusieurs réserves de ciel étoilé, dont la plus grande au monde : le parc national Wood Buffalo.

Beyond the Prairies

East of the Rockies stretch the vast Interior Plains; the fields of Grasslands National Park are at its heart, but travel further north to witness unspoiled aspen parkland and even lush, rolling tundra in Tuktut Nogait National Park.

Au-delà des Prairies

À l'est des Rocheuses s'étendent les vastes plaines intérieures. Nous connaissons surtout les champs du Parc national des Prairies, mais plus au nord, il faut voir les forêts sauvages de trembles et même la toundra luxuriante et vallonnée du Parc national Tuktut Nogait.
